FARM & TRADE PHILOSOPHY

We believe that truth comes first in any business. That the way a person does business is as important as the business getting done. Business volume does not and never has exceeded one's quality of service. We believe that the success of the industry along with Farm and Trade, Inc. is based on a team effort where all parties must fully participate and are fairly rewarded. In many ways, we feel that F&T is only a vehicle for those who hold similar views to work together as a team to allow all of us to succeed. We will do everything we are able to help clients, regardless of size or influence, to make informed decisions of when and how to market optimally. Our core job is simply to protect our clients in all of our efforts, to the best of our abilities.

It is our belief that God and Family come before business concerns without diminishing an honorable work effort. In essence, our organization believes in infallible truth the Bible teaches and that life goes well behind the concerns of this world that will pass away. Truths, honor, fairness, efficiency, righteousness, are ideals we hold in high esteem. For the good we do, we want all credit to go to God as without him nothing of any worth can be done. As well as all fallible humans, mistakes will happen from time to time but we will do everything in our power to limit them and keep you informed on true reality to the best of our ability. For any and all mis-steps at Farm And Trade, Inc. let there be no doubt that the burden of responsibility lies completely here and we will not take any issue lightly. We look forward to working with all players in the industry who want a trusting partnership and offer a new beginning for all players that want to do business, regardless of any past issues or affiliation.

We are Consultants!

We believe in an open trading platform. We work to market your product at optimal levels. Weekly, we write the F&T report to provide information. Our goal is to help our clients on costs, profits, and politics. We hold monthly producer meetings to discuss the market.
